The NATURAL ACCESSORIES

When it comes to accessories, it's time to go all natural - we're thinking straw hats, woven bags and tan leather trim, adding that natural twist to everything from crisp cotton shirts and delicate blouses to silk and dresses and utility denim. But just for holidays or trips to the coast, raffia and straw accessories can give a relaxed feel to pulling and certainly look nicer than heavy structural leather. What's more, they're elegant and effortless - and that's our favourite combination.

Fairy tale style

By wearing a shimmer, full-on skirt with the finest of casual sweaters, this key party piece won't have to stay in the wardrobe this season. Okay, the skirt is a bit extravagant, but it is fun and festive. Pop it on and you shall go to the ball (even if the party is in your own living room).

Make it special...

High-low styling is the oldest fashion trick in the book - dressing up your casual, off-duty wardrobe with a touch of sparkle and some full-on glamour. And this Christmas, it feels like just the right amount of bling!
